WHO I AM

As a telecommunications engineering professional and passionate about technology, I like to constantly learn about new technologies and tools. I am able to use different tools to develop technological solutions in different programming languages. I have a great disposition to assume and face challenges using skills such as: research, management and use of good practices for the development of projects, which allows decision-making and successful and efficient implementation.

EXPERIENCE

Project Engineer / Information Systems Engineer

GRUPO ACI,

March 2021 – Present

- Development of projects for companies using IoT
- Use of systems such as Opcenter RD&L, E2W,
- Design and implementation of graphical interfaces and consumption of Siemens APIs.
